ABOUT ME

B.Tech AI & Robotics student at VIT Chennai with expertise in Python, SQL, and data analysis. Experienced in building database applications, automation workflows, and data visualization dashboards. Passionate about data engineering and AI-driven solutions.

EDUCATION

B.Tech in Computer Science & Engineering (AI & Robotics)

Vellore Institute of Technology, Chennai | 2024 - 2028

- CGPA - 8.86/10

Senior Secondary (12th)

St. Xavier's Sr. Sec. School, Jaipur | 2012 - 2024

- Percentage - 91%

Higher Secondary (10th)

St. Xavier's Sr. Sec. School, Jaipur | 2012 - 2024

- Percentage - 87.2%

STUDENT ORGANIZATIONS

Operations Member

Android Club

Apr 2025 - Present

Coordinated event planning, resource management, and member engagement to support technical workshops and development projects. Streamlined club workflows and fostered a collaborative learning environment.

Technical Member

Linux Club

Sep 2024 - Oct 2025

Developed and delivered technical workshops on Linux systems, command-line tools, and open-source technologies. Designed curriculum and fostered a collaborative learning environment for members.

PATENT

• NFC-Enabled Wireless Mouse | ESP32, BLE, RC522 NFC, Python | Patent Pending

Developed an **innovative hardware device** combining **BLE wireless mouse control** with **clipboard-to-NFC data transfer**. Implemented **dual-protocol embedded system** (C++ firmware + Python monitoring). **Patent application pending** with technical documentation completed.

PROJECTS

- **Departmental Store Management System | Python, MySQL, matplotlib**

Built a full-stack retail management application with product inventory, customer database, automated invoice generation, and real-time stock updates. Integrated MySQL backend with Python business logic and matplotlib analytics for inventory and payment insights.

- **Top 100 Songs Spotify Playlist Generator | Python, Spotipy, BeautifulSoup**

Developed a Python automation tool that scrapes Billboard Hot 100 chart data for any specified date and automatically creates curated Spotify playlists. Integrated Spotify API with OAuth2 authentication and BeautifulSoup for web scraping. Implemented song search and matching logic to handle API integration and data parsing challenges.

SKILLS

- **PROGRAMMING LANGUAGES** | Python • C/C++ • Java
- **DATABASES & BACKEND** | MySQL • PostgreSQL • Flask
- **TESTING & AUTOMATION** | Selenium • BeautifulSoup
- **EMBEDDED SYSTEMS & MICROCONTROLLERS** | Arduino • ESP32
- **SOFT SKILLS** | Leadership • Critical Thinking • Time Management • Effective Communication
- **OPERATING SYSTEMS** | Linux • Windows
